

Boom Learning Accessibility Conformance Report
International Edition
(Based on VPAT® Version 2.5)

Name of Product/Version: Boom Cards: Teacher Edition

Report Date: 05/31/2025

Product Description : (a) Teacher Boom Learning tools and (b) Boom Cards interactive lessons and activities built by educational professionals. Includes conformance report for third-party Boom Cards that can be purchased through the Boom Store (UGC content). For UGC Boom Cards we have accessibility support for vision, hearing, and mobility challenges. The Boom Studio has tools to create decks with accessibility features. Starting in August 2025, all Boom Cards published to the Boom Store must indicate if they offer motoric, auditory, and/or visual accessibility features. Because the catalog supports a range of cognitive and physical challenges, not all materials are suitable for all users. Using the accessibility feature filters allows educators to find right-fit materials. See our Student App ACR for more details on UGC for students.
